**DETAILED ACTION**

**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The specification has been amended as follows:

Page 2 line 12, "(DCI) 22" has been replaced by "(DCI) 27".

***Allowable Subject Matter***

2. Claims 1-21 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art search did not disclose the limitation of "a data bus interface circuit coupled to route high speed data over a subset of test bus". The invention uses an existing test bus and redefines a subset of the test bus for use as a data bus. Patent 5283678,

Art Unit: 2664

Czerwiec disclosed a Test Access Unit for testing of subscriber lines through Line Units 64. The disclosure uses test and data buses, but do not describe overlaying the data bus functionality onto the test bus. Patent 5920609, Toumani et al. discloses a metallic access test extension system. The disclosure describes a Digial Loop Carrier test system with extension modules at both local and far end locations. They do not disclose the use of a data bus over a test bus.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
